PDEU PANDIT DEENDAYAL ENERGY UNIVERSITY

Formerly Pandit Deendayal Petroleum University (PDPU)

UGC RECOGNIZED

INTERNATIONAL CONFERENCE ON OIL & GAS FOR ENERGY SECURITY (ICOGES-2024)

16 - 17 February, 2024

Organized By

Department of Petroleum Engineering

In Collaboration with

MatCorr

PDEU TEC — DST - PDEU TECHNOLOGY ENABLING CENTRE

CEGE — CENTRE OF EXCELLENCE FOR GEOTHERMAL ENERGY

Supporting Organizations

FIPI — Federation of Indian Petroleum Industry, Pandit Deendayal Energy University

IADC — Pandit Deendayal Energy University Student Chapter

SPE International — Pandit Deendayal Energy University SPE Student Chapter

SEG — Society of Exploration Geophysicists

Student Chapter EAGE — European Association of Geoscientists & Engineers

About the Conference

The International Conference on Oil & Gas for Energy Security (ICOGES-2024) is a two-day conference that aims to facilitate the convergence of academicians, policymakers, regulators, innovators, oil and gas corporations, infrastructure firms, technology providers, industry experts, and investors. The event will serve as a platform for these diverse stakeholders to share their insights, offer stimulus, and contribute to the discourse around the energy security mission, which attests to India's intent to access affordable energy sources for a nation's economic stability and overall well-being.

About the University

Pandit Deendayal Energy University (PDEU) was initiated as Pandit Deendayal Petroleum University (PDPU) to cater to the booming energy sector of the country.

Today, PDEU offers multiple courses ranging from engineering, liberal arts, and management along with maximum exposure and opportunities to its students through various national and International programs with various organizations

About the Department

The School of Energy Technology (SoET) was a constituent school of the PDEU established as School of Petroleum Technology (SPT) in 2007. The Department of Petroleum Engineering under the umbrella of SoET has served as the prominent department of PDEU offering a high-quality academic curriculum in the field of Petroleum Engineering.

The robust collaborations with regional government entities, research institutions, and enterprises provide extensive prospects for its students, researchers, and academics to engage in high-quality research, thereby facilitating their professional development and advancement.

The department offers four-year UG (B.Tech), a two-year Masters program (M.Tech), and Ph.D programs in several interdisciplinary research fields.

Objectives

- To create awareness for the energy mix to have sustainable future growth.
- To amalgamate industry-academia-policy think tanks for constructive and collaborative inputs to secure energy demands.
- To sustain the growing energy demand while maintaining the carbon footprint.
- To identify the research areas and develop an integrated solution approach.
- To demonstrate and contribute to the development of alternate energy sources.

Thrust Areas

- **Drilling and Completion**
- **Production/ Reservoir/ EOR/ Integrated Reservoir Management**
- **Geosciences and Geophysics**
- **Unconventional Reservoirs (Coalbed Methane, Shale, Gas Hydrates, and Tight oil)**
- **Data Science and Artificial Intelligence**
- **Energy Transition**
- **Health, Safety and Environment**
- **Multidisciplinery topics (CCUS, Pipeline/Flow Assurance, City Gas Distribution, and Refinery)**
